

BHARATHI DEVI DONTHA

SOFTWARE DEVELOPER - HTML/CSS/JavaScript, React & Angular, Responsive UI Design

bharathi5699@gmail.com | +1 (437) 663-0796 | [LinkedIn](#) | [Profile](#)

SKILLS

- **Coding Languages:** JavaScript ES6+, Python, SQL, HTML5, CSS3, Node.js, ReactJS, Angular, Bootstrap
 - **Web Development:** Responsive design, Flexbox, CSS Grid, UI component development, DOM manipulation
 - **Database Systems:** MongoDB, MySQL, database integration, REST API integration, and system optimization
 - **Version Control:** Git, Jira, code review, debugging, troubleshooting, release planning, production deployment
 - **Software Practices:** Agile Scrum, sprint planning, execution, coordination, testing, and full-stack development
-

WORK EXPERIENCE

Network Analyst Intern

May 2025 – Current

Epic Planet Fun

- Reduced vulnerability alerts by 15% by supporting network hardening, firewall rule optimization, and VLAN segmentation.
- Improved threat response efficiency by 10% through real-time traffic monitoring and packet analysis using Wireshark and SIEM tools.
- Supported routing, switching, VPN connectivity, and DNS/DHCP/IPAM documentation across enterprise environments.
- Engineered responsive web modules for scheduling systems utilizing HTML5 and JavaScript, decreasing manual processing errors by 20%.
- Optimized CSS selectors and DOM traversal algorithms, accelerating page load performance by 15-25% across internal portal applications.

Programmer Analyst

October 2021 – November 2023

Cognizant Technology Solutions

- Architected 15+ scalable web applications leveraging React and Angular frameworks, reducing rendering latency by 30% through optimization.
 - Constructed reusable component libraries and UI frameworks, decreasing development iteration time by 25% across concurrent projects.
 - Integrated REST API endpoints with backend microservices, improving real-time data synchronization accuracy by 40% for dashboard systems.
 - Delivered 10+ production releases through Agile sprint cycles, maintaining 95% velocity adherence and meeting deployment schedule targets.
 - Conducted systematic code reviews and debugging protocols, reducing client-reported defect rates by 25% and enhancing system stability.
 - Improved quality gates by 35% by automating static code analysis within CI/CD pipelines.
 - Implemented token-based authentication and access controls aligned with Zero Trust architecture.
-

VOLUNTEER EXPERIENCE

Community Volunteer

December 2017 – June 2021

Street Cause GNI

- Coordinated 10+ fundraising campaigns achieving 100% of target outcomes.
 - Engaged 300+ community members through outreach initiatives.
 - Managed logistics planning and documentation for 15+ community programs.
-

EDUCATION

Post Graduate Diploma in Cyber Security

2024 – 2025

Sault College, Ontario, Canada

Bachelor of Electronics and Communication Engineering

2017 – 2021

Guru Nanak Institutions Technical Campus, India

CERTIFICATIONS

CompTIA Security+

January 2025
